Hi, Jim.

I think we should respond either by email or in a letter. I too found some their account not to be wholly accurate.

I typically don't like documenting meetings with minutes either. I imagine that they sent this along because of the recent misunderstandings regarding the ASTM.

I am tied up in meetings most of the day tomorrow and out on Wednesday, so let's pick this up on Thursday if you are in.

Thanks.

Nicole

So, what do we do with a letter like this. I would say their responses are not totally accurate, but I don't like documenting meetings with such minutes, etc. Do we have to send a letter back or can we remain silent on this? They also want to set up a meeting to discuss some other issues. I'll them to take the lead on setting up a meeting.

Feel free to give me a call on how to respond. This is actually the first time GP has submitted anything like this.

Jim

Subject: April 3rd Meeting Summary and Proposed Conference Call

Jim,

The attached letter documents Georgia-Pacific's understanding of the discussions we had during our meeting in Chicago last week. Please let us know if it is alignment with your takeaways from the meeting.

We would also like to propose a follow up conference call to discuss several additional comments that we were not able to get to during the meeting. In an effort to capitalize on our remaining time, I suggest we schedule this as early next week as possible.

Please let us know your availability for a call.

Thanks,

L. Chase Fortenberry, P.G.
